Legendary former Congress member George Miller III has endorsed Nancy Skinner for California State Senate.

Miller, born in Richmond, served the East Bay for 19 terms in Congress. He has a dramatic impact upon national policy particularly in the areas of education, environment and labor.

Congress member Miller released this statement in endorsing Skinner:

"As former Chair of the House Education Committee, the quality of our nation's public schools has always been a top priority for me. But schools are mostly funded at the state and local level. That's why we need strong champions for quality schools in the state legislature. Champions like Nancy Skinner. Nancy Skinner's creative and tenacious work to shut corporate tax loopholes has helped bring hundreds of millions of dollars in critically needed funding to our schools. I join parents and teachers in supporting Nancy Skinner for State Senate."

Skinner responded, "For nearly 40 years, George Miller served as one of California's most influential and effective Congressional leaders. He was invariably a courageous and powerful voice for those who most needed a champion. I am truly honored to have his support."

George Miller joins Congressman Mike Thompson and the California Professional Firefighters as the most recent endorsers of the Skinner campaign
