Another major endorsement for Nancy Skinner. Congressman Mike Thompson, whose district overlaps with SD9 in Contra Costa County, has joined the Nancy Skinner team.

"Nancy Skinner is an environmental leader who makes a difference," Thompson stated. "Long before most people even realized that climate change was a threat, Nancy Skinner was organizing cities across the globe to address the crisis. As a member of the State Assembly, Nancy Skinner helped turn California into the world leader in renewable energy. I am proud to support Nancy Skinner for State Senate."

Congressmember Mike Thompson has served the 5th District since 1998. A member of the powerful Ways and Means Committee, Thompson is known as a thoughtful legislator who works to forge consensus across partisan boundaries. Thompson previously served as a member of the California State Senate from 1990 to 1998.

"Mike Thompson is one of California's most impressive and effective legislators," said Nancy Skinner. "He is guided by bedrock principles but dedicated to finding practical solutions to difficult problems. I look forward to working with him to address the issues in the communities that our districts will share. It is a great honor to have Congressman Thompson's support."
