The California chapter of the National Organization for Women (NOW) has endorsed Nancy Skinner for California State Senate in District 9.

With over 500 chapters and hundreds of thousands of members nationwide, NOW is the nation's oldest, largest and most respected organization dedicated to fighting for full gender equality.

"Nancy Skinner is an outstanding feminist leader and we strongly support her for State Senate," stated Jerilyn Stapleton, President of California NOW. "Due to her leadership, evidence from rape kits is now entered into the national data base to help solve sexual assault cases. Nancy Skinner is our choice for State Senate."

As a feminist activist, Skinner served on the Board of the East Bay National Women's Political Caucus and founded Women In Power, an organization dedicated to electing more Democratic women at all levels of government.

Nancy Skinner has secured a clean sweep of feminist organizations and groups dedicated to reproductive choice. In addition to NOW, Skinner has been endorsed by Planned Parenthood Advocates Mar Monte, EMILY's List, NARAL Pro-Choice America, California Women's List, Women's Political Committee and the California Women's Legislative Democratic Caucus.
