The Bay Area's leading newspaper, the *San Francisco Chronicle*, today endorsed Nancy Skinner for State Senate, District 9.

The Chronicle stated that Skinner has been "one of the region's more effective leaders over the past several decades." They specifically cited Skinner persistence in passing legislation to enact sales taxes on on-line purchases, a reform which has generated over \$1 billion a year for our schools and other vital services; and her path breaking leadership in the area of criminal justice reform.
